

# ETIMAT 6 1p B25

## Specifikacije

|                                  |                             |
|----------------------------------|-----------------------------|
| Šifra proizvoda                  | 002111518                   |
| Opis                             | ETIMAT 6 1p B25             |
| Funkcija                         | MCB                         |
| Nazivna prekidna moć             | 6                           |
| Karakteristika okidanja          | B                           |
| Nazivna struja                   | 25                          |
| Nazivni napon                    | 230/400                     |
| Broj polova                      | 1                           |
| Nazivna frekvencija (Hz)         | 50/60                       |
| Standardi                        | IEC/EN 60898-1, IEC 60947-2 |
| Tip napona                       | AC                          |
| Nazivni impulsni napon Uimp (kV) | 6                           |
| Terminali (mm <sup>2</sup> )     | 1-25                        |
